This piece is intended to provide investment education only. You should work with your financial professional before making any investment or purchasing decisions. The EQUI-VEST® StrategiesSM variable annuity does contain additional charges, including a mortality risk and expense charge, annual administration charge, charge for the enhanced death benefit, withdrawal charges, state premium tax, plan operating expense, management, 12b-1 fees and operating expenses.

AllianceBernstein is an affiliated company. This may not be a complete list of all managers available in the EQUI-VEST® variable deferred annuity.

For more information, contact your financial professional or visit equitable.com.

Equitable is the brand name of Equitable Holdings, Inc. and its family of companies, including Equitable Financial Life Insurance Company (Equitable Financial) (NY, NY); Equitable Financial Life Insurance Company of America (Equitable America), an AZ stock company with main administrative headquarters in Jersey City, NJ; Equitable Advisors, LLC (member FINRA, SIPC) (Equitable Financial Advisors in MI & TN); and Equitable Distributors, LLC. The obligations of Equitable Financial and Equitable America are backed solely by their claims-paying abilities.

Fidelity Institutional AM is a registered service mark of FMR LLC. Used with permission. The investment options listed are available through the EQUI-VEST® variable annuity, including investment options from well-known investment managers. Some investment options may not be available within your contract. For more information, please contact your financial professional.

Structured Investment Option — The Structured Investment Option tracks an index, so if the index goes up at the end of the Segment's investment period (which lasts 1, 3 or 5 years, depending on Segment selected), amounts in the Segment earn the same rate of return as the index up to the Segment's Performance Cap Rate. If the index goes down at the end of the Segment's investment period, a 10% or -20% Segment Buffer protects against the first 10% or 20% of losses. While you are protected from some downside risk, if the negative return is in excess of the Segment Buffer, there is risk of substantial loss of principal. Equitable may, upon advance notice, discontinue, suspend or change Segment offerings. The Structured Investment Option prospectus contains more information on Segment offering limitations and restrictions, as well as expenses. The Structured Investment Option does not involve an investment in any underlying portfolio. Instead, it is an obligation of, and subject to, the claims-paying ability of Equitable Life Insurance Company. The S&P 500® Price Return Index comprises 500 of the largest companies in leading industries of the U.S. economy. Larger, more established companies may not be able to attain potentially higher growth rates of smaller companies, especially during extended periods of economic expansion. Standard & Poor's®, S&P 500® and Standard & Poor's 500® are trademarks of Standard & Poor's Financial Services, LLC, ("Standard & Poor's") and have been licensed for use by Equitable Funds Management Group, LLC. The Structured Investment Option is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's does not make any representation regarding the advisability of investing in the Structured Investment Option. The Russell 2000® Price Return Index tracks the performance of small-cap companies. Stocks of small- and mid-size companies have less liquidity than those of larger companies and are subject to greater price volatility than the overall stock market. Smaller company stocks involve a greater risk than is customarily associated with more established companies. The Russell 2000® Price Return Index is a trademark of Russell Investments and has been licensed for use by Equitable. The product is not sponsored, endorsed, sold or promoted by Russell Investments, and Russell Investments makes no representation regarding the advisability of investing in the product. The MSCI EAFE Price Return Index is a sampling of securities deemed by MSCI as designed to measure the equity market performance of the developed European, Australasian and Far East (EAFE) markets. Australasia includes Australia, New Zealand and neighboring islands of the South Pacific. International securities carry additional risks, including currency exchange fluctuation and different government regulations, economic conditions and accounting standards. The product referred to herein is not sponsored, endorsed or promoted by MSCI, and MSCI bears no liability with respect to any such product or any index on which such product is based. The prospectus contains a more detailed description of the limited relationship MSCI has with Equitable Financial and any related products.

Personal Income Benefit™ — An optional feature available for an additional cost. Early withdrawals from the Personal Income Benefit™ account value or withdrawals from your Personal Income Benefit™ that exceed your Guaranteed Annual Withdrawal Amount may significantly reduce future Guaranteed Annual Withdrawal Amount payments. An excess withdrawal is caused when you withdraw more than your Guaranteed Annual Withdrawal Amount in any contract year from your Personal Income Benefit™ account value. The Personal Income Benefit™ feature is not appropriate if you do not intend to take withdrawals prior to annuitization. The Personal Income Benefit™ may not be available in all states or in all plans. Guarantees are based on the claims-paying ability of Equitable Financial.

EQ/Money Market — An investment in the EQ/Money Market Portfolio is neither guaranteed nor insured by the U.S. government, the Federal Deposit Insurance Corporation or any other government agency. Although the portfolio seeks to preserve the value of your investment at \$1.00 per unit, it is possible to lose money by investing in the portfolio.

Guaranteed Interest Option — No more than 25% of any contribution can be allocated to the Guaranteed Interest Option (GIO). We will not process any transfer requests that would result in more than 25% of the account value in the GIO. These allocation and transfer restrictions are currently waived in all states. We will notify participants 45 days in advance if these restrictions are reimposed. Guarantees are based on the claims-paying ability of Equitable Financial Life Insurance Company. Based on the investment method selected, there may be restrictions on the amounts that can be transferred out of the Guaranteed Interest Option. These restrictions are currently waived. We will notify participants 45 days in advance if these restrictions are reimposed.

Important Note

Equitable believes that education is a key step toward addressing your financial goals, and we've designed this material to serve simply as an informational and educational resource. Accordingly, this brochure does not offer or constitute investment advice, and makes no direct or indirect recommendation of any particular product or of the appropriateness of any particular investment-related option. Your needs, goals and circumstances are unique, and they require the individualized attention of your financial professional.

The investment objectives and policies of certain funds may be similar to those of other funds managed by the same investment advisor. No representation is made, and there can be no assurance given, that any fund's investment results will be comparable to the investment results of any other fund, including another fund with the same investment advisor or manager.

This piece must be preceded or accompanied by a current prospectus. Please consider the charges, risks, expenses and investment objectives carefully before purchasing a variable annuity or making an investment option selection.

The EQUI-VEST® variable annuity is a long-term financial product that is generally used for retirement purposes and includes, among other fees and charges, a charge for withdrawals that exceed the free withdrawal amount. The amount of the withdrawal charge we deduct is equal to 5% of any contribution withdrawn attributable to contributions made during the current and 5 prior contract years measured from the date of the withdrawal. Withdrawal charges will no longer apply after the completion of 12 contract years. In general terms, an annuity is a contractual agreement in which payments are made to an insurance company, which agrees to pay out an income stream or a lump-sum amount at a later date. An annuity contract that is purchased to fund a qualified retirement plan should be purchased for the annuity's features and benefits other than tax deferral. For such cases, tax deferral is not an additional benefit for the annuity. You may also want to consider the relative features, benefits and costs of this annuity with any other investment that you may have in connection with your retirement plan or arrangement. Amounts in the annuity's variable investment options are subject to market risk, including the loss of principal. Variable investment options can fluctuate in value and are not guaranteed. Individuals cannot directly invest in an index.

EQUI-VEST® is a registered service mark of Equitable Financial Life Insurance Company. This flyer is not a complete description of the EQUI-VEST® variable annuity. Certain types of benefits may not be available in all jurisdictions.

Issuer: Equitable Financial Life Insurance Company (Equitable Financial).
